

## SVS Series Ship Transportation Trolley

Model Number	Capacity	Pressure	Lifting Height	Orbital width	Running wheel diameter	Speed of movement with full loading	Speed of movement with empty loading	Input voltage	Walking conditions
	(ton)	(bar)	(mm)	(mm)	(mm)	m/min	m/min		
SVS-XD-80T	80	200-300	1000	1000	750	5-10	10-20	220-576V 3Ph	Orbital
SVS-XD-150T	150	200-300	1000	1000	750	5-10	10-20	220-576V 3Ph	Orbital

Capacity: 80-300ton

Lifting Height: 1000mm

Max. Operating Pressure: 200-300bar

1. Design for "ship building in sections" which equipments need to be transported on long distance.
2. High precision equipment to adjust the ship in three dimensionals.
3. Single equipment capacity of 80t, 150, 300t.
4. Can be designed according to customers requirements. (degree of automation, degree of precision, load weight and moving speed)
